

# TECHNICAL DATA SHEET

## FT20 Fibre Tracer

The KD Optics FT20 Fibre Tracer is a compact hand held visible source for tracing multimode fibres. It is suitable for the testing of LANs, FDDI, or other multimode links whether inside or outside a building. The unit is extremely simple to use and has an extremely long battery life from 2 alkaline AA cells.

**FT20 fibre Tracer**

- ? **Easy to Use**
- ? **Bright visible LED (Class 2)**
- ? **2km range (62.5/125 fibre)**
- ? **ST or Universal connector**
- ? **60 hour battery life**
- ? **Rugged**

### Ordering Information

FT20-ST Tracer with ST connector

FT20-UNI Tracer with Universal connector

### Other Products from KD Optics:

Singlemode / multimode Power meters and sources  
Visible laser sources  
Loss Test Sets  
Optical attenuators  
Optical Talk sets  
Cooled laser sources  
Optical data logging and Device alignment test sets  
Thermo Electric Cooler (TEC) controllers  
OTDRs, Fusion splicers
